

ELIOT BRIDGE AREA

A launch is stationed along the buoy line just upstream of the Eliot Bridge and controls downstream traffic. The Launch Official may momentarily stop downstream traffic if there are significant numbers of boats waiting to launch or dock at nearby boathouses. **LAUNCHING:** Do not launch without the permission of the dockmaster. The dockmaster will tell you when a break in the traffic is coming up for you to be able to cross. **DOCKING:** Notify the Launch Official that you need to return to the dock, and await permission to dock. CBC and BB&N crews should wait upstream of the Eliot Bridge.

FINISH LINE

When boats cross the finish line, they **MUST not stop**. All boats to pass beyond the Blue buoys (600' upstream) BEFORE turning down river
