

Race Traffic Patterns at Magazine Beach Area (SADL)

**RACE DAY RETURN TRAFFIC**

Returning boats should wait on the Boston side of the river and cross when directed. Docks will alternate between launching and retrieving as required. Always listen for and follow instructions from River Control Launches and Dockmasters.

**RACE DAY TRAFFIC PATTERN**

Boats launching from Magazine Beach should head downstream on the Cambridge side of the river and proceed to the warm-up area. Stay close to the Cambridge side of the river to avoid drifting onto the race course.
